### Update on Virtual Care Code

Further to our update last week, the NLMA submitted a proposal for revised, interim virtual care codes to the Department on July 6th. We expect to receive a response from the Department in the coming days. As previously noted, any changes that may be agreed upon will be retroactive to July 7th.

At present the government has extended the existing pandemic interim virtual care code until October 1st. We will continue to update members on the process as it unfolds.
