Members to Receive Full Retroactive Payments

Dear Colleagues:

As I reported in my [December 8 President's Letter](#), the 2013-2017 Memorandum of Agreement has been signed. I also reported that NLMA had detected an anomaly in government's calculations of members' retroactive payments, which could have potentially led to an underpayment in many members' retroactive compensation.

I am pleased to report that today the provincial government acknowledged the problem with the calculations and that corrections have been made to ensure members receive the full balance owing of their retroactive payments.

Government officials advised that systems are ready to make retroactive payments to salaried, fee-for-service and APP physicians within calendar year 2017. Barring any unforeseen circumstances, members should see their full retroactive payments included in the December 29 payroll.

Best Regards,

A handwritten signature in blue ink that reads "Lynn Dwyer".
