Virtual Care Codes and Income Replacement

The arrangements on virtual care (video and telephone) codes, as well as fee-for-service income replacement issues, will be sent to the NLMA from government tomorrow morning (March 18th). Until 7:00 pm this evening we still expected to see the virtual care codes proposal today, but the Department has now told us that despite their best efforts they could not meet this deadline.

When we receive the information our Health Economics staff will assess it for adequacy and clarity. If we see gaps or problems we will communicate back to the Department in short order. Either way, our aim is to enable government to officially approve the new arrangements very quickly. We will update the membership again tomorrow.

*Representing and supporting a united medical profession and providing leadership
in the provision of excellent health care in Newfoundland and Labrador*
